PROFESSIONAL SUMMARY

Data analyst with hands-on experience in SQL-based anomaly detection, KPI monitoring, and root-cause investigations. Built threshold-based detection systems that flagged irregular patterns in operational data, enabling faster risk-oriented decisions across cross-functional teams. Skilled in transforming ambiguous datasets into actionable metrics, validating data integrity, and communicating findings clearly to non-technical stakeholders.

CORE COMPETENCIES

Anomaly Detection	Root Cause Analysis	KPI Monitoring	Dashboard Development	Data Validation	SQL
Python / Pandas	dbt	Power BI	Cross-functional Collaboration	Risk-oriented Reporting	Data Integrity

EXPERIENCE

Logistics Integrators Pvt. Ltd. Mar 2025 - Mar 2026

Management Trainee - Data & Operations Analytics · India

- Built **SQL-based anomaly detection** on operational and sales datasets to identify irregular patterns and flag risk signals, enabling faster risk-oriented decisions across the business.
- Developed weekly dashboards tracking **10+ KPIs** with threshold-based alerting to surface performance deviations in real time for management action.
- Conducted **root-cause investigations** on shipment delay spikes - decomposed by route, time window, and vendor - improving turnaround time and reporting accuracy.
- Coordinated with **3-5 cross-functional teams** to validate data integrity, resolve discrepancies, and establish a unified source of truth across freight operations.
- Owned data validation processes end-to-end, ensuring consistency across reporting systems and reducing downstream errors.

Vrun Minerals Pvt. Ltd. Feb 2024 - Jul 2024

Operations Intern - Analytics & Reporting · India

- Collected and cleaned distributor and sales datasets to support performance monitoring and anomaly reporting.
- Built Excel dashboards tracking operational metrics with deviation highlighting for sales and inventory trends.
- Documented data workflows and requirements, improving transparency and reducing reporting errors.
- Assisted in inventory reconciliation and accuracy checks to maintain data integrity across daily operations.

EDUCATION

MBA / PGPM - Operations Management 2025

ICFAI Business School, Mumbai

Focus on data-driven decision making, process optimization, and performance analysis. CGPA 6.83.

Bachelor of Computer Applications 2022

Shree Guru Ram Rai I.T.S., Dehradun

Foundation in programming, data handling, and analytical problem solving. Score 72.68%.

CERTIFICATIONS

dbt Fundamentals dbt Labs 2026

SKILLS

Analytics: SQL, Python, Pandas, dbt

BI & Visualization: Power BI, MS Excel, Dashboard Development (familiar with Looker / Metabase class tools)

Core Skills: Anomaly Detection, Root Cause Analysis, KPI Tracking, Data Validation, Data Integrity, Process Automation

Methods: Threshold-based alerting, Pattern detection, Cross-functional data validation **Other:** Agile, Manual Testing, API Testing, ESG
