Dehradun, India · Remote · Immediate joiner

PROFESSIONAL SUMMARY

Data Analyst with ~1.5 years of experience in SQL, Python, Power BI, and Tableau delivering KPI dashboards, funnel analysis, cohort analysis, and experiment-driven insights in operations and logistics contexts. Backed by 9 end-to-end portfolio projects across real datasets totalling 1.2M+ records - covering **fraud & anomaly detection, cohort retention, RFM segmentation, A/B testing principles, and automated reporting pipelines**. Familiar with hiring-platform data from first-hand use: customised career-ops, a Claude (Anthropic) powered job-search pipeline, to evaluate 370+ job descriptions against a multi-dimension scoring rubric - directly analogous to the candidate-scoring and hiring-funnel metrics this role tracks. **Google Advanced Data Analytics Certified** (7-of-7, May 2026); strong communicator with experience presenting findings to both technical and non-technical audiences.

CORE COMPETENCIES

SQL · Python (Pandas, NumPy)

Power BI · Tableau · Streamlit

KPI Tracking & Dashboard Design

Funnel & Cohort Analysis

A/B Testing & Experiment Design

Anomaly & Outlier Detection

Data Quality & Validation

Data Modelling & Reporting Structures

Product & Platform Analytics

Data Storytelling

Cross-functional Collaboration

Remote · Immediate Joiner

WORK EXPERIENCE

Logistics Integrators Pvt. Ltd. Mar 2025 - Mar 2026

Data Analyst - Management Trainee Program · Dehradun, India

- Built and owned **weekly KPI dashboards in Power BI** tracking 10+ metrics across freight operations; defined data models and reporting structures that became the management single source of truth
- Led **funnel and drop-off analysis** on shipment journeys (start-to-delivery), identifying conversion bottlenecks and operational patterns that informed process improvements
- Conducted **statistical anomaly detection and threshold-based alerting** using SQL and Python (Z-score, IQR); surfaced outliers before they impacted SLAs
- Coordinated with 3-5 cross-functional teams - operations, sales, finance, logistics - to gather data requirements, validate findings, and present recommendations to senior management
- Automated recurring reporting pipelines** in Python (Pandas, NumPy), reducing manual effort on weekly business reviews; documented methodologies and assumptions for reproducibility
- Drove data quality and integrity workflows: validation, reconciliation, ETL audit - ensuring accuracy of records used across all reporting systems

Vrun Minerals Pvt. Ltd. Feb 2024 - Jul 2024

Operations Analyst (Intern) · Dehradun, India

- Cleaned and validated distributor and sales datasets; built dashboards with deviation highlighting; documented data workflows for non-technical stakeholders
- Conducted business trend analysis and prepared management reports supporting supply-chain decisions; maintained operational trackers and ensured data accuracy

KEY PROJECTS

SQL Retail Analysis - Cohort Retention, RFM & Funnel Analytics SQL · COHORT · FUNNEL

Cleaned and loaded 805,549 rows from 525,461 raw transactions into SQLite; wrote **15 advanced queries covering window functions, CTEs, RFM segmentation, cohort retention, and MoM revenue growth via LAG()** - 5,878 customers across 41 countries. Directly replicable for candidate cohort retention, feature adoption funnels, and hiring-platform engagement metrics.

SQL · SQLite · Python · [GitHub](#)

Interactive KPI Dashboard - 180K Supply Chain Orders STREAMLIT · KPI · ALERTING

Built a live multi-department Streamlit dashboard tracking **6 KPIs across 180,519 real supply chain orders** with automated alerting; 40.9% on-time delivery rate surfaced through deviation detection. Designed for non-technical management consumption with drill-down by department.

Python · Streamlit · Plotly · Pandas · [GitHub](#)

Fraud & Anomaly Detection - 284K Credit Card Transactions ANOMALY DETECTION · SCORING

Applied **Z-score, IQR, and rule-based risk scoring (0-100)** to 283,726 European credit card transactions; flagged 2,838 suspicious records at 0.17% fraud rate. Statistical scoring methodology directly applicable to candidate response quality scoring and platform usage anomaly detection.
Python · Pandas · NumPy · SciPy · Scikit-learn · [GitHub](#)

Google Advanced Data Analytics Capstone - NYC Taxi EDA A/B TESTING · STATISTICS · PACE

Full EDA on 408,294 NYC TLC taxi trips - feature engineering, IQR outlier detection, **hypothesis testing and A/B test framework design**, 4 Python visualisations + Tableau scatter plot; documented using PACE framework and executive summary.
Python · Pandas · Matplotlib · Seaborn · Tableau · [GitHub](#)

EDUCATION

MBA / PGPM - Operations Management · [ICFAI Business School, Mumbai](#) 2025 · CGPA 6.83
Data-driven decision making, process optimisation, performance analytics, stakeholder management.

Bachelor of Computer Applications (BCA) · [Shree Guru Ram Rai I.T.S., Dehradun](#) 2022 · 72.68%
Programming (Python, Java), relational databases (SQL), systems analysis.

CERTIFICATIONS

 Google Advanced Data Analytics Professional Certificate (7-of-7) - Statistics, A/B Testing, Regression, ML	Google / Coursera	May 2021
SQL and PostgreSQL: The Complete Developer's Guide (22 hrs)	Udemy	May 2021
Python for Data Science	IBM / Credly	Apr 2026
Power BI Essential Training	LinkedIn Learning	Mar 2026
2025 Mastering dbt (Data Build Tool) - From Beginner to Pro (8 hrs)	Udemy	May 2021

SKILLS

Analytics: SQL (window functions, CTEs, cohort queries, LAG/LEAD), Python (Pandas, NumPy, SciPy, Scikit-learn), R, A/B testing, hypothesis testing, regression analysis, anomaly detection, funnel analytics, cohort retention, RFM segmentation

BI & Visualisation: Power BI, Tableau, Streamlit, Plotly, Matplotlib, Seaborn, MS Excel (Pivot Tables, Power Query, advanced formulas), executive dashboard design

Data Engineering: dbt Core, ETL validation, data quality & integrity, data modelling, automated reporting pipelines, openpyxl

Collaboration: Cross-functional stakeholder management, data storytelling, non-technical communication, Agile, remote-first work
