PROFESSIONAL SUMMARY

Business Analyst with MBA (Operations Management) + 1.5 years of experience in **requirement gathering, process documentation, stakeholder communication, and data-driven decision support**. Skilled at translating business needs into structured requirements, user stories, and process flows. Built and maintained BI dashboards for senior leadership, led cross-functional workshops with 3-5 teams, and documented measurement frameworks for non-technical stakeholders. Proficient in Excel, SQL, Python, and AI tools -- including building a production AI system (career-ops) that automates business workflows using GenAI. Holds the **Google Advanced Data Analytics Professional Certificate** (7/7, May 2026). Portfolio: github.com/Zolow-kuni/data-portfolio

CORE COMPETENCIES

Requirement Gathering & Documentation

User Stories & Acceptance Criteria

Process Flow Documentation (As-Is/To-Be)

Stakeholder Communication

Agile / Backlog Refinement

Data Analysis (Excel · SQL · Python)

AI Tools & GenAI Workflows

Cross-functional Collaboration

WORK EXPERIENCE

Logistics Integrators Pvt. Ltd.

Mar 2025 - Mar 2026

Data Analyst - Management Trainee Program · Dehradun, India

- Gathered and documented business requirements** from 3-5 cross-functional teams (operations, finance, sales); translated stated requirements into structured data questions, process flows, and measurement frameworks
- Assisted in **planning and facilitating requirement sessions** with stakeholders; documented as-is processes and contributed to to-be process designs for reporting and operational workflows
- Created and maintained **functional documentation and requirement artefacts** -- process models, KPI definitions, data validation rules -- ensuring accuracy and version control throughout delivery
- Supported **day-to-day communication with delivery teams**; clarified documented requirements, resolved assumptions, and escalated gaps to project leadership
- Used **Excel and Python for data analysis** to support data-driven decisions; helped identify trends, anomalies, and improvement opportunities for business stakeholders
- Demonstrated structured thinking and ownership -- proactively identified reporting gaps, raised issues to management, and took end-to-end responsibility for assigned analysis workstreams

Vrun Minerals Pvt. Ltd.

Feb 2024 - Jul 2024

Operations Analyst (Intern) · Dehradun, India

- Documented business workflows and data requirements; collaborated with non-technical stakeholders to translate operational needs into analytical solutions
- Supported data analysis and reporting to guide supply-chain and inventory decisions

PROJECTS

career-ops - AI-Enabled Business Operations System Claude AI · Node.js · Python · YAML

Built a production AI system using GenAI (Claude LLM) + Python + Node.js to automate and document a 200+ application business pipeline. Demonstrates proficient use of AI tools, requirements-to-system translation, workflow automation, and documentation -- directly relevant to Accenture's AI-enabled delivery approach.

Demonstrates: AI tool proficiency · Process automation · Requirements documentation · Structured thinking

Python Automation Pipeline Python · Pandas · openpyxl

End-to-end automated data pipeline: requirement-driven design, data validation, analysis, and formatted Excel report generation in a single command. Demonstrates the ability to translate business needs into automated solutions.

github.com/Zolow-kuni/data-portfolio-2/tree/main/project7_python_automation

SQL Retail Analysis SQL · SQLite · Python

Advanced SQL queries on 805,549 rows including window functions, CTEs, and cohort analysis -- demonstrates the basic SQL and data analysis tool capability listed as a good-to-have for this role.

github.com/Zolow-kuni/data-portfolio-2/tree/main/project5_sql_retail_analysis

EDUCATION

MBA / PGPM - ICFAI Business School, Mumbai 2025 · CGPA 6.83

Operations Management -- business analysis, process optimization, stakeholder management, and data-driven decision making.

BCA - Shree Guru Ram Rai I.T.S., Dehradun 2022 · 72.68%

Programming (Java, Python), relational databases (SQL), analytical problem solving.
