Dehradun, India · Open to relocate to Gurugram · Immediate joiner

## PROFESSIONAL SUMMARY

Operations and Data Governance Analyst with ~1.5 years of experience in **data integrity validation, quality control workflows, portfolio tracking, and cross-functional stakeholder coordination. MBA (Operations Management) - ICFAI Business School Mumbai, 2025; BCA 2022.** Engineered a 10-rule data validation engine achieving 100% accuracy on financial records; maintained KPI dashboards and audit logs tracking 180K+ operational records; led RCA workflows coordinating across 3-5 cross-functional teams. Proficient in **Power BI, MS Excel (Advanced), SQL, and Python (Pandas)** for data management, reporting, and process automation. Proven track record of managing multiple concurrent workstreams under deadline pressure with high accuracy standards.

## CORE COMPETENCIES

|                                                      |                                                   |                                           |
|------------------------------------------------------|---------------------------------------------------|-------------------------------------------|
| Data Integrity & Quality Control                     | Portfolio & Partner Data Tracking                 | Documentation Standards & Version Control |
| Process Governance & Compliance Oversight            | Power BI · Excel (Advanced) · PowerPoint          |                                           |
| Database Management & Reconciliation                 | Cross-functional Stakeholder Coordination         |                                           |
| Large Dataset Analysis · Trend & Risk Identification | Multiple Workstream Management                    | Audit Logging & ETL Pipelines             |
| SQL · Python (Pandas) · Data Transformation          | Root Cause Analysis & Corrective Action Reporting |                                           |

## WORK EXPERIENCE

Logistics Integrators Pvt. Ltd. Mar 2025 - Mar 2026 · Dehradun, India

### Data Analyst (Management Trainee Program)

- Data integrity & validation:** Drove pre-reporting validation, reconciliation, and ETL audit workflows across 180K+ order records - eliminated discrepancies and delivered 100%-accurate datasets for management review; directly mirrors partner portfolio data accuracy and quality control responsibilities
- Portfolio & KPI tracking:** Maintained Power BI dashboards tracking 10+ KPIs across freight operations; ensured timely, complete, and up-to-date data through coordination with cross-functional teams - equivalent to managing partner status and portfolio change tracking
- Audit logging & documentation:** Built Python (Pandas, openpyxl) ETL automation with structured audit logging on schedule; enforced documentation standards and version control on reporting outputs
- Quality checks & corrective actions:** Led RCA on data anomalies and performance gaps - partnered with 3-5 teams to validate conflicting data, identify root causes, and deliver corrective-action reports to senior management
- Large dataset analysis:** Wrote advanced SQL (CTEs, window functions) for threshold-based alerting, trend analysis, and risk identification on operational datasets

Vrun Minerals Pvt. Ltd. Feb 2024 - Jul 2024 · Dehradun, India

### Operations Analyst (Intern)

- Maintained accurate inventory and sales records; performed data accuracy checks and reconciliation using Excel and Python (Pandas); identified discrepancies and escalated corrective actions
- Documented metric definitions and process guidelines for non-technical stakeholders across teams

## SELECTED PROJECTS

Financial Data Integrity Checker Data QA · Validation · Quality Control

Python · Pandas · NumPy · Matplotlib

10-rule validation engine on 700 Microsoft financial records; 10/10 rules passed, 14 profit outliers flagged via 3-sigma detection, 91-100% completeness per column. Demonstrates systematic quality-control methodology applicable to partner portfolio data management. [\[GitHub\]](#)

Python Automation Pipeline - MIS Reporting ETL · Audit Logging · Documentation

Python · Pandas · openpyxl · logging

End-to-end pipeline generating a 5-sheet formatted Excel report with structured audit logging, version-stamped outputs, and 100% data quality score - single-command execution. Mirrors centralised database management and documentation standards requirements. [\[GitHub\]](#)

SQL Retail Analysis - 805K Rows SQL · Large Dataset · Trend Analysis

SQL · SQLite · Python

805,549-row dataset; 15 advanced queries - CTEs, window functions, trend analysis, risk segmentation across 5,878 customers and 41 countries. Demonstrates ability to analyse large datasets, identify trends and risks, and surface improvement opportunities. [\[GitHub\]](#)

EDUCATION

MBA / PGPM - Operations Management 2025 · CGPA 6.83  
ICFAI Business School, Mumbai

Focus: operations governance, process optimisation, performance analytics, cross-functional stakeholder management.

Bachelor of Computer Applications (BCA) 2022 · 72.68%  
Shree Guru Ram Rai I.T.S., Dehradun
