WORK EXPERIENCE

Logistics Integrators Pvt. Ltd. Mar 2025 - Mar 2026 · Dehradun, India

Data Analyst (Management Trainee Program)

- Statistical anomaly detection:** Built SQL-based threshold alerting and Python (SciPy/NumPy) outlier detection on operational and sales datasets - flagged performance anomalies before SLA breaches, directly analogous to financial data monitoring at AmEx scale
- Funnel and conversion analysis:** Designed shipment journey drop-off and conversion analytics (start-to-delivery), surfacing bottlenecks and informing operational process redesigns for senior management
- Python automation:** Automated recurring reporting workflows in Python (Pandas, NumPy), eliminating manual effort and improving turnaround on weekly business reviews; owned data quality and ETL audit workflows
- Cross-functional insight delivery:** Partnered with 3-5 teams to validate data, lead root-cause investigations, and deliver corrective-action reports - translating ambiguous operational data into clear business recommendations
- BI dashboards:** Owned Power BI dashboards tracking 10+ KPIs across freight operations (180K+ orders); established the single source of truth for cross-team reporting

Vrun Minerals Pvt. Ltd. Feb 2024 - Jul 2024 · Dehradun, India

Operations Analyst (Intern)

- Cleaned and validated distributor and sales datasets in Excel and Python (Pandas); conducted business trend and deviation analysis for supply-chain decision support
