Dehradun, India · Open to relocate

PROFESSIONAL SUMMARY

Reporting and analytics professional with ~1.5 years of experience delivering **operational KPI reporting, trend analysis, and productivity scorecards** for cross-functional business stakeholders. Proficient in Python, Power BI, and SQL at entry level (1-3 years) -- the exact stack this role requires. Built and owned weekly management dashboards tracking 10+ KPIs, led root-cause investigations on performance gaps, and automated recurring reporting pipelines. Backed by 9 portfolio projects and the **Google Advanced Data Analytics Professional Certificate** (7/7, May 2026). Ready to apply the same measurement-and-reporting discipline to distribution management analytics at Capgemini. Portfolio: github.com/Zolow-kuni/data-portfolio

CORE COMPETENCIES

Operational KPI Reporting

Trend Analysis & Productivity Metrics

Power BI Dashboard Development

SQL Data Analysis

Python Reporting Automation

Operational Scorecard Development

Distribution Analytics

Data Storytelling for Leadership

WORK EXPERIENCE

Logistics Integrators Pvt. Ltd. Mar 2025 - Mar 2026

Data Analyst - Management Trainee Program · Dehradun, India

- Owned weekly **Power BI dashboards** tracking 10+ operational KPIs across freight distribution - the single source of truth for management reporting, consumed by senior leadership in weekly business reviews
- Produced **standardized operational and management reports** including trending analysis of productivity and profitability measures across distribution segments and lines of business
- Led **root-cause analysis (RCA)** on performance spikes -- shipment delays, turnaround drops, cost overruns -- and delivered data-backed recommendations to cross-functional stakeholders
- Designed **conversion and funnel analysis** on shipment journeys using SQL; identified drop-off patterns and delivered actionable recommendations for operational improvement
- Built **data quality and integrity workflows** -- validation, reconciliation, ETL audit -- ensuring reporting accuracy and alignment with data governance standards across systems
- Automated recurring reporting workflows using **Python (Pandas)**, eliminating manual effort and improving turnaround on weekly distribution management reviews

Vrun Minerals Pvt. Ltd. Feb 2024 - Jul 2024

Operations Analyst (Intern) · Dehradun, India

- Built **operational scorecards and deviation dashboards** on inventory and sales trends using Excel and Python; flagged anomalies for management review
- Documented measurement frameworks and KPI definitions, improving transparency for non-technical stakeholders and standardising reporting processes
- Conducted business trend analysis to support supply-chain and distribution decisions

PROJECTS

Interactive KPI Dashboard Power BI · Python · Streamlit

Built a multi-department operational dashboard tracking 6 KPIs (on-time delivery, revenue, profit margin, delay days) across 180,519 supply chain orders with automated alerting and threshold signals -- the same scorecard + trend analysis structure this role requires.
github.com/Zolow-kuni/data-portfolio/tree/main/project2_kpi_dashboard

Python Automation Pipeline Python · Pandas · openpyxl

End-to-end automated reporting pipeline on 1,000 retail records -- ingest, clean, validate, analyse, and generate a 5-sheet formatted Excel report; 100% data quality score, single-command execution. Mirrors the "repeatable reporting processes" requirement directly.
github.com/Zolow-kuni/data-portfolio-2/tree/main/project7_python_automation

Power BI Customer Churn Dashboard Power BI · DAX · Python

3-page Power BI dashboard with DAX measures tracking 20.4% churn rate across 10,000 customer records -- segmented by demographics, credit bands, and balance tiers. Demonstrates the distribution segmentation and profitability analysis this role requires.
github.com/Zolow-kuni/data-portfolio-2/tree/main/project6_powerbi_churn

SQL Retail Analysis - Segmentation & Trend Reporting SQL · SQLite · Python

15 advanced SQL queries on 805,549 rows covering MoM revenue growth, cohort retention, RFM segmentation, and productivity trends across 5,878 customers and 41 countries. Direct analog to agency segmentation and channel performance reporting.
