Dehradun, India · Relocating to Hyderabad

PROFESSIONAL SUMMARY

Data and product analyst with ~1.5 years of hands-on experience in SQL, Python, and BI delivering funnel analysis, cohort insights, and KPI measurement in high-throughput operations data environments. Designed and owned end-to-end funnel analytics tracking the shipment lifecycle from order creation to final delivery - identifying drop-off points, conversion bottlenecks, and TAT patterns directly analogous to product and payment funnel analysis. Proficient in SQL (CTEs, window functions), Python (Pandas, NumPy), Power BI, and MS Excel. Ready to apply these skills to user-journey analytics, A/B test measurement, and feature impact tracking in a fintech product context.

CORE COMPETENCIES

SQL (CTEs, Window Functions)

Python (Pandas, NumPy)

Funnel Analysis

Cohort Analysis

A/B Testing Principles

Product Metrics & KPIs

Conversion & Drop-off Analysis

Power BI

MS Excel (Advanced)

Data Analysis

Root Cause Analysis

Stakeholder Communication

EXPERIENCE

Logistics Integrators Pvt. Ltd.

Mar 2025 - Mar 2026

Data Analyst (Management Trainee Program)

Dehradun, India

- Designed and owned **funnel analytics across the shipment lifecycle** - order creation, dispatch, transit, delivery - tracking stage-wise conversion rates, drop-off points, and TAT deviations to identify and escalate operational bottlenecks
- Conducted **cohort-based analysis** of operational data (shipment cohorts by route, carrier, and date band) to surface patterns invisible in aggregate reporting; findings directly informed process redesigns
- Wrote **SQL (CTEs, window functions, aggregations)** to extract, clean, and analyse multi-table operational datasets; applied statistical thresholds to flag anomalies in delay and cost data before they surfaced in reporting
- Built and owned a **Power BI KPI dashboard tracking 10+ business metrics**; standardised metric definitions across ops, sales, and finance teams - became the single source of truth for weekly business reviews
- Performed **root-cause investigations** on data spikes: formulated hypotheses, validated against raw data, documented findings, and proposed metric-backed corrective actions reviewed by leadership
- Automated routine **Python (Pandas) data workflows** and ETL validation checks, reducing manual reporting effort and ensuring data integrity across weekly review cycles

Vrun Minerals Pvt. Ltd.

Feb 2024 - Jul 2024

Operations / Data Analyst (Intern)

Dehradun, India

- Analysed distributor and sales data using Excel and Python (Pandas) to identify **trend deviations and inventory anomalies**; built Excel dashboards to surface actionable signals for operations review
- Performed **data validation and reconciliation** to ensure accuracy before data entered management review cycles; documented KPI definitions to reduce ambiguity for non-technical stakeholders
- Conducted business trend analysis to generate insights for supply-chain decisions, translating data patterns into **clear stakeholder-ready narratives**

EDUCATION

MBA / PGPM - Operations Management · ICFAI Business School, Mumbai

2025 · CGPA 6.83

Focus: data-driven decision making, business metrics, product performance analytics, process optimisation. Provides structured business and product thinking to complement technical analytics skills.

Bachelor of Computer Applications (BCA) · Shree Guru Ram Rai I.T.S., Dehradun

2022 · 72.68%

Foundation in programming (Python, Java), relational databases (SQL), and analytical problem solving.

CERTIFICATIONS

dbt Fundamentals	dbt Labs	2026

SKILLS

- Analytics & SQL:** SQL (joins, CTEs, window functions, aggregations), funnel analysis, cohort analysis, conversion tracking, drop-off investigation, A/B testing principles, KPI measurement, anomaly detection
- Python & Data:** Python (Pandas, NumPy), data cleaning, data transformation, ETL validation, automated reporting, dbt Core, data quality checks
- Reporting & BI:** Power BI (dashboard ownership, KPI tracking), MS Excel (Pivot Tables, Power Query, Advanced Formulas), operational and product metrics dashboards
- Business & Product:** product metrics definition, feature impact measurement, stakeholder communication, cross-functional reporting, data storytelling, business intelligence
