PROFESSIONAL SUMMARY

Data analyst with hands-on experience measuring operational KPIs, detecting anomalies, and translating complex datasets into data-backed decisions. Built end-to-end measurement systems in SQL, Python, and Excel - tracking conversion, turnaround, and drop-off metrics across operational journeys. Proven ability to communicate findings clearly to non-technical stakeholders and define analytical approaches in ambiguous environments.

CORE COMPETENCIES

SQL

Python / Pandas / NumPy

Excel (Pivot Tables, Modeling)

dbt

KPI Measurement

Funnel & Drop-off Analysis

Root Cause Analysis

Data Validation

Dashboard Development

Cross-functional Collaboration

A/B Testing Principles

Power BI

EXPERIENCE

Logistics Integrators Pvt. Ltd. Mar 2025 - Mar 2026

Management Trainee - Data & Operations Analytics · India

- Owned **conversion and turnaround metrics** across freight operational journeys - tracking drop-off points and resolution rates to surface underperforming segments and enable data-backed decisions post each process change.
- Built SQL-based **anomaly detection** on operational and sales datasets, comparing actuals against baselines to flag irregular patterns before they escalated.
- Developed weekly dashboards tracking **10+ KPIs** with threshold-based alerting, giving management real-time visibility into performance deviations.
- Conducted **root-cause investigations** on performance spikes - decomposed by segment, time window, and operational variable to identify drivers and recommend corrective action.
- Coordinated with **3-5 cross-functional teams** to validate data integrity, resolve discrepancies, and establish a single source of truth across reporting systems.

Vrun Minerals Pvt. Ltd. Feb 2024 - Jul 2024

Operations Intern - Analytics & Reporting · India

- Collected and cleaned distributor and sales datasets to support performance monitoring, segment analysis, and operational reporting.
- Built Excel dashboards tracking operational metrics with deviation highlighting - enabling quick identification of underperforming areas.
- Documented data workflows and measurement requirements, improving consistency and reducing reporting errors across teams.
- Supported inventory reconciliation and accuracy checks to maintain data integrity across daily operations.

EDUCATION

MBA / PGPM - Operations Management 2025

ICFAI Business School, Mumbai

Focus on data-driven decision making, process optimization, and quantitative performance analysis. CGPA 6.83.

Bachelor of Computer Applications 2022

Shree Guru Ram Rai I.T.S., Dehradun

Foundation in programming, data handling, and analytical problem solving. Score 72.68%.

CERTIFICATIONS

dbt Fundamentals dbt Labs 2026

SKILLS

Analytics: SQL, Python, Pandas, NumPy, dbt **BI & Visualization:** Power BI, MS Excel (Pivot Tables, Modeling), Dashboard Development

Core Skills: KPI Measurement, Funnel Analysis, Root Cause Analysis, Anomaly Detection, Data Validation, Data Integrity

Methods: A/B testing principles, Cohort analysis, Cross-functional data validation, Process Automation

Other: Agile, Manual Testing, API Testing, ESG
