joshisubham442@gmail.com | linkedin.com/in/subham-joshi-b25778280 | Dehradun, India · Open to Bengaluru hybrid

## PROFESSIONAL SUMMARY

Data Analyst with ~1.5 years hands-on experience in SQL-based anomaly detection, threshold-based alerting, and fraud-pattern investigation on operational datasets. Built monitoring systems that surfaced outliers and SLA-impacting events before they escalated - the same detective logic that powers fraud analytics and risk monitoring in fintech. Skilled at cross-functional incident investigation, ETL validation, data quality, and translating signal patterns into operational response plans.

## CORE COMPETENCIES

SQL & Python (Pandas, NumPy)

Anomaly Detection

Threshold-based Alerting

Fraud Pattern Recognition

Risk Analytics

Data Quality & ETL Validation

Cross-functional Incident Investigation

Signal Monitoring

Operational Data Support

KPI Tracking & Reporting

Power BI Dashboards

Root Cause Analysis

## EXPERIENCE

Logistics Integrators Pvt. Ltd. Mar 2025 - Mar 2026

Data Analyst (Management Trainee Program)

Dehradun, India

- Built **SQL-based anomaly detection and threshold-based alerting** on operational and sales datasets - surfaced outliers and SLA-impacting signals before they escalated, applying the same pattern-recognition logic used in fraud monitoring workflows
- Drove **data quality and ETL validation** workflows: validation, cross-system reconciliation, reporting audits - eliminated discrepancies across reporting systems and ensured data integrity for all downstream consumers
- Led **root-cause analysis (RCA) and incident investigation** on performance anomalies - partnering with 3-5 cross-functional teams to validate data signals, identify root causes, and ship corrective actions
- Owned weekly **Power BI dashboards tracking 10+ business KPIs** across freight operations; established the single source of truth for cross-team monitoring and operational support
- Designed **funnel and drop-off analysis** on shipment journeys (start-to-delivery), surfacing operational risk patterns and informing process redesigns
- Automated recurring **Python (Pandas, NumPy) reporting pipelines**, reducing manual effort and improving turnaround on weekly business reviews

Vrun Minerals Pvt. Ltd. Feb 2024 - Jul 2024

Operations Analyst (Intern)

Dehradun, India

- Cleaned and validated distributor and sales datasets in **Excel and Python (Pandas)**; built monitoring dashboards with deviation highlighting that flagged anomalies in inventory and sales trends
- Performed **daily data accuracy checks and inventory reconciliation** - catching discrepancies before they entered management review cycles
- Documented data workflows and metric definitions for non-technical stakeholders; conducted **trend analysis** to generate actionable insights for supply-chain decisions

## EDUCATION

MBA / PGPM - Operations Management · ICAI Business School, Mumbai 2025 · CGPA 6.83

Focus: data-driven decision making, process optimization, and performance analytics. Brings structured analytical thinking to risk and fraud operations work.

Bachelor of Computer Applications (BCA) · Shree Guru Ram Rai I.T.S., Dehradun 2022 · 72.68%

Foundation in programming (Java, Python), relational databases (SQL), and analytical problem solving.

CERTIFICATIONS

|                  |          |      |
|------------------|----------|------|
| dbt Fundamentals | dbt Labs | 2026 |

SKILLS

- SQL & Python:** SQL (joins, window functions, CTEs, aggregations), Python (Pandas, NumPy), Anomaly Detection, Threshold-based Alerting, Outlier Detection, Signal Monitoring, Statistical Analysis, Cohort Analysis
- Risk & Fraud Analytics:** Fraud Pattern Recognition, Risk Analytics, Operational Data Support, Monitoring Coverage, Cross-functional Incident Investigation, Root Cause Analysis (RCA), ETL Validation, Data Quality, Data Integrity
- BI & Visualization:** Power BI, MS Excel (Pivot Tables, Power Query, Modeling), Dashboard Development, Self-serve Analytics, Executive Reporting
- Analytics Engineering:** dbt Core, Data Transformation, ELT/ETL Pipelines, Process Automation, Reporting Infrastructure
- Collaboration:** Stakeholder Management, Cross-functional Data Validation, Data Storytelling, Non-technical Communication
