Dehradun, India · Open to Odisha relocation

PROFESSIONAL SUMMARY

Operations and data analyst with ~1.5 years of experience in MIS preparation, daily operational reporting, data entry and validation, and process documentation across logistics and supply-chain environments. Comfortable managing high-volume datasets in Excel and SQL, producing accurate performance summaries for cross-functional teams, and maintaining audit-ready data workflows. Eager to apply analytical discipline and reporting accuracy to industrial operations and plant-level data management.

CORE COMPETENCIES

MS Excel (Advanced)

MIS Reporting

Data Entry & Validation

Operational Reporting

Audit Documentation

SQL

Power BI

Process Documentation

Cross-team Coordination

Performance Summaries

EXPERIENCE

Logistics Integrators Pvt. Ltd.

Mar 2025 - Mar 2026

Data Analyst (Management Trainee Program)

- Dehradun, India
- Prepared and maintained **daily and weekly MIS reports** covering 10+ operational KPIs -- production, consumption, and dispatch data -- for review by ops, sales, and finance teams
 - Performed **data entry, cleaning, and validation** across large operational and sales datasets in Excel and SQL; flagged and resolved discrepancies before they entered reporting systems
 - Built **Excel and Power BI dashboards** for operational reporting and performance summaries, standardising data formats and measurement definitions across teams
 - Owned **audit documentation and data-quality checks** across data workflows; maintained an auditable single source of truth across cross-functional reporting
 - Coordinated with operations, sales, and finance teams to consolidate inputs for **performance summaries and process improvement reports**
 - Identified and escalated operational issues through structured **root-cause analysis** on data anomalies -- delays, cost overruns, and reporting gaps

Vrun Minerals Pvt. Ltd.

Feb 2024 - Jul 2024

Operations / Data Analyst (Intern)

- Dehradun, India
- Entered, cleaned, and validated distributor and sales data in Excel; built deviation-tracking dashboards on inventory and sales trends
 - Performed **inventory reconciliation and data-accuracy checks** daily, catching discrepancies before they reached reporting systems
 - Documented data workflows and measurement definitions to improve transparency for non-technical stakeholders
 - Analysed business and supply-chain data to produce actionable insights for operations decisions
