Dehradun, India · Relocating to Bengaluru

PROFESSIONAL SUMMARY

Data and business analyst with ~1.5 years of experience translating operational data into business metrics, KPI dashboards, and stakeholder-ready insights. Built and owned Power BI dashboards tracking 10+ KPIs, ran SQL-based anomaly detection and root-cause investigations, and defined cross-functional metric standards used as the single source of truth for freight operations. Proficient in SQL, Python (Pandas, NumPy), Power BI, and dbt. Eager to apply these analytics skills to fintech product metrics - user funnels, transaction analysis, and business performance dashboards.

CORE COMPETENCIES

SQL

Python (Pandas, NumPy)

Power BI

KPI Dashboards

Funnel & Cohort Analysis

Root Cause Analysis

Data Quality & ETL Audit

dbt Core

Business Metrics

Stakeholder Management

MS Excel (Advanced)

Anomaly Detection

EXPERIENCE

Logistics Integrators Pvt. Ltd.

Mar 2025 - Mar 2026

Data Analyst (Management Trainee Program)

Dehradun, India

- Built and owned a **Power BI KPI dashboard** tracking 10+ business metrics across freight ops, sales, and finance - eliminated cross-team disputes over inconsistent definitions and became the single source of truth for weekly business reviews
- Wrote **SQL queries (joins, CTEs, window functions)** to extract, transform, and analyse operational datasets; ran statistical anomaly detection to flag outliers in shipment delay and cost data before they surfaced in reporting
- Conducted **funnel-style analysis** of the shipment lifecycle - from order creation to final delivery - to identify drop-off points, delay patterns, and conversion bottlenecks in the freight pipeline
- Performed **root-cause investigations** on operational data spikes; documented findings and proposed metric-backed corrective actions reviewed by ops and finance leadership
- Authored a **data dictionary standardising 10+ metric definitions**; presented to finance, ops, and customer success stakeholders to align cross-functional reporting
- Automated routine **Python (Pandas) data pulls** and ETL validation checks, reducing manual reporting effort and improving data integrity across weekly reporting cycles

Vrun Minerals Pvt. Ltd.

Feb 2024 - Jul 2024

Operations / Data Analyst (Intern)

Dehradun, India

- Analysed distributor and sales data to identify **trend deviations and inventory anomalies**; built Excel deviation-tracking dashboards to surface actionable signals for the ops team
- Performed **data validation and reconciliation** daily to ensure reporting accuracy before data entered management review cycles
- Documented **data workflows and KPI definitions** to improve visibility and reduce ambiguity for non-technical decision makers

EDUCATION

MBA / PGPM - Operations Management · ICFAI Business School, Mumbai

2025 · CGPA 6.83

Focus: data-driven decision making, business metrics, operations strategy, process analysis. Provides structured business thinking to complement technical analytics skills.

Bachelor of Computer Applications (BCA) · Shree Guru Ram Rai I.T.S., Dehradun

2022 · 72.68%

Foundation in programming, relational databases (SQL), and analytical problem solving.
