Dehradun, India · IST

PROFESSIONAL SUMMARY

Operations + data analyst with ~1.5 years in SQL-based anomaly detection, BI dashboarding, and operations investigations across logistics. Track record owning data integrity, threshold-based alerting, and migration-style reconciliation workflows. Strong fit for Verifications, Risk Ops, Data Quality, and Trust & Safety roles.

CORE COMPETENCIES

SQL

Python (Pandas)

dbt

Power BI

Anomaly Detection

Threshold-based Alerting

Root Cause Analysis

Data Validation

Data Integrity

Queue Management

Exception Handling

Migration / Reconciliation

KYC/KYB Exposure (vendor docs)

EXPERIENCE

Logistics Integrators Pvt. Ltd.

Mar 2025 - Mar 2026

Data & Risk Analyst (Management Trainee Program)

Dehradun, India

- Built **SQL + Python pipelines for statistical anomaly detection** on operational and sales datasets, surfacing outliers before they impacted SLAs or revenue
- Designed **threshold-based alerting and pattern-detection rules** across 10+ KPIs; weekly review of flagged anomalies drove operational interventions
- Led **root-cause analysis (RCA)** on performance spikes - shipment delays, cost overruns, freight discrepancies - partnering with 3-5 cross-functional teams to validate data and ship corrective actions
- Owned **queue-style exception handling** on flagged transactions: triage, document review (vendor / freight / distributor documents, analogous to KYC/KYB workflows), corrective action, audit trail
- Built **validation and reconciliation workflows** across ops, sales, and finance datasets - the same auditable pattern verifications and migration work demand
- Executed **migration-style data workflows** in Python (Pandas, NumPy) for recurring reporting and reconciliation - reducing manual touch on weekly business reviews

Vrun Minerals Pvt. Ltd.

Feb 2024 - Jul 2024

Operations / Data Analyst (Intern)

Dehradun, India

- Cleaned and validated distributor / sales datasets in Excel + Python; built deviation-highlighting dashboards on inventory and sales trends
- Performed **inventory reconciliation and data-accuracy checks** across daily operations, catching discrepancies before they reached reporting systems
- Documented data workflows and measurement definitions for non-technical stakeholders to improve transparency
- Conducted business trend analysis to inform supply-chain decisions

PROJECTS

Personal portfolio in progress (target: anomaly-detection demo + dbt risk-monitoring project + RCA case study).

EDUCATION

MBA / PGPM - Operations Management · ICFAI Business School, Mumbai

2025 · CGPA 6.83

Focus: data-driven decision making, process optimization, performance analytics.

Bachelor of Computer Applications (BCA) · Shree Guru Ram Rai I.T.S., Dehradun

2022 · 72.68%

Foundation in programming (Java, Python), SQL databases, and analytical problem solving.

CERTIFICATIONS

dbt Fundamentals	dbt Labs	2026
------------------	----------	------

SKILLS

- Detection & Monitoring:** Statistical Anomaly Detection, Outlier Detection, Threshold-based Alerting, Pattern Detection, Signal Monitoring, Incident Investigation, RCA
- Data Quality & Integrity:** Data Validation, Data Integrity, Reconciliation, ETL Validation, Data Audit, Migration Workflows, QA of Data Pipelines
- SQL & Python:** SQL (joins, window functions, CTEs), Python (Pandas, NumPy), Statistical Analysis, A/B Testing Principles, Cohort Analysis, Funnel Analytics
- Analytics Engineering:** dbt (dbt Core), ELT Pipelines, Data Transformation
- BI & Visualization:** Power BI, MS Excel, BI Dashboard Development, Self-serve Analytics, Looker / Metabase (familiar)
- Operations:** Queue Management, Exception Handling, KYC/KYB Document Review (analogous via freight vendor work), KPI Tracking, Stakeholder Management, Cross-functional Validation
- Other:** Manual Testing, API Testing, Agile, Java, ESG
