Dehradun, India · Remote · Flexible hours

PROFESSIONAL SUMMARY

SQL and data analyst with 1.5 years of hands-on experience writing **advanced SQL queries**, **optimizing data pipelines**, **building ETL workflows (dbt)**, and **evaluating data quality**. Strong in PostgreSQL, SQLite, Python (Pandas), and Power BI. Built 15 advanced SQL queries on 805,549-row datasets covering window functions, CTEs, query optimization, and data normalization. Certified in SQL/PostgreSQL (Udemy, 22 hrs), dbt (Udemy), and Google Advanced Data Analytics (7/7). Independent worker, fully remote-capable, analytically rigorous - ideal for AI evaluation and database intelligence work. Portfolio: github.com/Zolow-kuni/data-portfolio

CORE COMPETENCIES

Advanced SQL (Window Functions · CTEs · Optimization)

PostgreSQL · SQLite · MySQL (familiar)

Database Design & Normalization

ETL Pipelines (dbt Core)

Python (Pandas · NumPy · Data Wrangling)

Data Quality & Integrity Validation

AI Tool Evaluation (GenAI · LLM workflows)

Power BI · Data Visualization

WORK EXPERIENCE

Logistics Integrators Pvt. Ltd.

Mar 2025 - Mar 2026

Data Analyst - Management Trainee Program · Dehradun, India

- Wrote and optimized **advanced SQL queries** (window functions, CTEs, joins, aggregations) on operational databases; identified inefficient queries and improved data extraction performance
- Built **ETL validation and data quality workflows** using Python (Pandas) and dbt; ensured data integrity, consistency, and accuracy across reporting pipelines
- Evaluated and debugged **data pipeline outputs** for anomalies, schema mismatches, and data inconsistencies -- the same analytical debugging this AI evaluation role requires
- Built **Power BI dashboards with DAX** for business intelligence reporting; managed data model relationships between multiple tables
- Automated recurring reporting workflows using Python, reducing manual effort and improving pipeline reliability

Vrun Minerals Pvt. Ltd.

Feb 2024 - Jul 2024

Operations Analyst (Intern) · Dehradun, India

- Validated data accuracy and identified inconsistencies across operational databases; documented data quality issues and recommended fixes

PROJECTS

SQL Retail Analysis - Advanced Query Suite

SQL · SQLite · Python

15 advanced SQL queries on 805,549 rows: LAG() for MoM growth, RANK()/DENSE_RANK() for segmentation, CTE chains for cohort retention, multi-table joins, and RFM segmentation across 41 countries. Demonstrates deep SQL proficiency for evaluating AI-generated database outputs. github.com/Zolow-kuni/data-portfolio-2/tree/main/project5_sql_retail_analysis

career-ops - AI Evaluation & Workflow System

Claude AI · Node.js · Python · YAML

Built and maintain a production system that evaluates AI-generated outputs (JD assessments via LLM prompts), scores accuracy, and flags inconsistencies. Demonstrates hands-on experience assessing AI outputs for quality, relevance, and correctness -- directly applicable to Deccan AI's evaluation work.

Python Automation Pipeline - ETL

Python · Pandas · dbt · openpyxl

End-to-end ETL pipeline: data ingestion, cleaning, transformation, validation, and report generation. 100% data quality score. Demonstrates ETL process knowledge and data warehousing concepts. github.com/Zolow-kuni/data-portfolio-2/tree/main/project7_python_automation

EDUCATION

MBA / PGPM - ICFAI Business School, Mumbai	2025 · CGPA 6.83
BCA - Shree Guru Ram Rai I.T.S., Dehradun	2022 · 72.68%

CERTIFICATIONS

 Google Advanced Data Analytics Professional Certificate (7/7) · Verify	Google / Coursera	May 2026
SQL and PostgreSQL: The Complete Developer's Guide (22 hrs) · Verify	Udemy	May 2026
Mastering dbt (Data Build Tool) · Verify	Udemy	May 2026
Python for Data Science · Verify	IBM / Credly	Apr 2026

SKILLS

SQL & Databases: Advanced SQL (window functions, CTEs, joins, stored procedures, views, optimization), PostgreSQL, SQLite, MySQL (familiar), database normalization, indexing concepts
ETL & Engineering: dbt Core (data transformation), Python ETL pipelines (Pandas), data validation, data quality management, schema design review
AI & Analytics: GenAI tools (Claude LLM), AI output evaluation, Power BI (DAX), Tableau (basic), Python (Pandas, NumPy, Scikit-learn), statistical analysis
