Dehradun, India · Open to relocate · Mumbai

PROFESSIONAL SUMMARY

Data & AI analyst with ~1.5 years of hands-on experience in **supply chain analytics, Power BI dashboards, SQL data pipelines, Python automation, and AI-enabled workflows**. Built statistical anomaly detection on supply chain operations, owned Power BI dashboards tracking 10+ KPIs for senior leadership, and deployed AI-driven automation systems in production. The supply chain domain in this role maps directly to my experience at Logistics Integrators -- inventory, freight, turnaround performance, and operational risk analysis. Backed by the **Google Advanced Data Analytics Professional Certificate** (7/7, May 2026), dbt certification, and 9 portfolio projects on 1.2M+ records. Portfolio: github.com/Zolow-kuni/data-portfolio

CORE COMPETENCIES

Power BI (Advanced · DAX · Data Models)

SQL (Advanced · Window Functions · CTEs)

Python (Pandas · NumPy · Automation)

Supply Chain Analytics

AI/ML & Anomaly Detection

Data Pipelines & ETL (dbt)

GenAI Workflow Automation

Root Cause Analysis & CAPA

WORK EXPERIENCE

Logistics Integrators Pvt. Ltd.

Mar 2025 - Mar 2026

Data Analyst - Management Trainee Program · Dehradun, India

- Designed and developed **Power BI dashboards tracking 10+ supply chain KPIs** (inventory turnover, delivery performance, cost overruns, turnaround) for senior leadership; built scalable data models with DAX measures and multi-table relationships
- Built **AI/ML-driven anomaly detection** on supply chain datasets using Z-score, IQR, and threshold-based alerting to surface operational risks and trigger CAPA before they impacted SLAs
- Wrote and optimized **advanced SQL queries and Python pipelines** (Pandas, NumPy) to extract, clean, transform, and analyse complex supply chain data; built scalable reporting frameworks reducing manual effort
- Led **root cause analysis (RCA) and CAPA tracking** on supply chain performance gaps -- shipment delays, cost overruns, compliance gaps -- delivering structured findings to cross-functional stakeholders
- Drove **automation and digital transformation** of recurring reporting workflows using Python, eliminating manual effort and improving data accuracy across operational systems
- Collaborated with 3-5 cross-functional teams to improve **operational visibility, governance, and data-driven decision-making** across freight and logistics operations

Vrun Minerals Pvt. Ltd.

Feb 2024 - Jul 2024

Operations Analyst (Intern) · Dehradun, India

- Analysed supply chain data for inventory optimization and operational efficiency improvements; built dashboards for management monitoring

PROJECTS

Fraud & Anomaly Detection System Python · SciPy · Scikit-learn

Applied Z-score, IQR, and ML-based risk scoring to 283,726 transactions; flagged 2,838 anomalies at 0.17% rate. Directly demonstrates the AI/ML anomaly detection and predictive analytics capability this role requires for supply chain risk management.
github.com/Zolow-kuni/data-portfolio/tree/main/project1_fraud_detection

Interactive Supply Chain KPI Dashboard Python · Streamlit · Plotly · Power BI

Live dashboard tracking 6 supply chain KPIs across 180,519 orders with automated alerting -- on-time delivery, delay days, revenue, margin. Mirrors the SCTC operational visibility and governance dashboards this role builds.
github.com/Zolow-kuni/data-portfolio/tree/main/project2_kpi_dashboard

career-ops - AI/GenAI Automation System Claude AI · Node.js · Python · YAML

Production AI system using GenAI + Python automation managing a 200+ record pipeline daily. Demonstrates the "AI-enabled culture" and digital transformation mindset Orange requires in this role.

EDUCATION

MBA / PGPM - ICFAI Business School, Mumbai 2025 · CGPA 6.83
Operations Management -- supply chain analytics, process optimization, governance, and performance measurement.

BCA - Shree Guru Ram Rai I.T.S., Dehradun 2022 · 72.68%

CERTIFICATIONS

🏆 Google Advanced Data Analytics Professional Certificate (7/7) · Verify	Google / Coursera	May 2026
SQL and PostgreSQL: The Complete Developer's Guide (22 hrs) · Verify	Udemy	May 2026
Mastering dbt (Data Build Tool) · Verify	Udemy	May 2026
Power BI Essential Training	LinkedIn Learning	Mar 2026

SKILLS

- Power BI & BI:** DAX (measures, calculated columns, parameters), data models, drill-through, cross-filtering, executive dashboards, KPI scorecards
- SQL & Python:** Advanced SQL (window functions, CTEs, joins, optimization), PostgreSQL, Python (Pandas, NumPy, SciPy, Scikit-learn), ETL/dbt pipelines
- AI & Automation:** GenAI (Claude LLM), prompt engineering, AI workflow automation, anomaly detection (Z-score, IQR, ML), statistical modelling (R)
- Supply Chain:** KPI tracking, inventory analysis, logistics performance, RCA, CAPA, data governance, operational efficiency
