PROFESSIONAL SUMMARY

Data and operations analyst with ~1.5 years of experience in **AI-augmented reporting, process automation, and market trend analysis** for business operations. Built and deployed automated reporting pipelines in Python, owned Power BI dashboards tracking 10+ KPIs for senior leadership, and applied generative AI tools to streamline operational workflows. Holds the **Google Advanced Data Analytics Professional Certificate** (7/7, May 2026) and built career-ops -- a production AI system using Claude, Node.js, and YAML that automates job-search operations for 200+ applications, demonstrating hands-on experience with AI tool adoption and process framing at scale. Ready to bring the same AI-augmented, measurement-driven approach to product management operations at Tata Communications. Portfolio: github.com/Zolow-kuni/data-portfolio

CORE COMPETENCIES

AI-Augmented Reporting & Analysis	Process Automation (Python)	Market Trend Analysis	Power BI KPI Dashboards
Generative AI Tool Adoption	Performance Metrics & Scorecards	Cross-functional Collaboration	Process Framing & Documentation

WORK EXPERIENCE

Logistics Integrators Pvt. Ltd. Mar 2025 - Mar 2026

Data Analyst - Management Trainee Program · Dehradun, India

- **Prepared automated and manual reports** on market trends, operational performance, and KPI metrics for senior leadership; maintained manual oversight and validation to ensure compliance and accuracy
- Used **AI-augmented analysis tools and Python scripting** to monitor operational patterns, surface emerging issues proactively, and generate insights before they impacted SLAs
- Owned **Power BI dashboards tracking 10+ performance metrics** across freight operations -- the single source of truth for weekly management reviews and business decision-making
- Collaborated with **3-5 cross-functional teams** (operations, finance, sales) to ensure alignment on product and process strategies; facilitated communication between data and business stakeholders
- Led **root-cause analysis (RCA)** on performance gaps; documented findings and process improvement opportunities, contributing to a culture of continuous improvement
- **Automated recurring reporting workflows** in Python (Pandas), reducing manual effort, improving turnaround on reviews, and building repeatable, scalable reporting processes

Vrun Minerals Pvt. Ltd. Feb 2024 - Jul 2024

Operations Analyst (Intern) · Dehradun, India

- Built **market trend and inventory dashboards** with deviation highlighting using Excel and Python; documented processes and measurement frameworks for non-technical stakeholders
- Performed data accuracy checks and reconciliation across operations; identified and flagged anomalies impacting business decisions
- Conducted business trend analysis to generate actionable insights supporting supply-chain and distribution decisions

PROJECTS

career-ops - AI-Augmented Job Search Operating System Claude AI · Node.js · YAML · Playwright · Gmail API

Built and deployed a production AI system that automates business operations for a 200+ application job search pipeline: AI-driven JD evaluation, automated PDF CV generation, Gmail sync, portal scanning, and Notion tracker integration. Uses generative AI (Claude) for prompt-based insight retrieval, Python/Node.js automation for repeatable reporting, and YAML config for process framing -- directly mirroring the role's core responsibilities.

Demonstrates: Generative AI tool adoption · Process automation · Automated reporting · AI-augmented customer insight analysis

Python Automation Pipeline Python · Pandas · openpyxl

End-to-end automated reporting pipeline on 1,000 retail records -- ingest, clean, validate, analyse, and generate a 5-sheet formatted Excel report with timestamps; 100% data quality score, single-command execution. Demonstrates the "automated reporting with manual oversight" capability the JD requires.

github.com/Zolow-kuni/data-portfolio-2/tree/main/project7_python_automation

Sales & Inventory Market Trend Analyzer Python · Pandas · Matplotlib · Seaborn

Analysed 9,994 US retail transactions across 3 categories; detected 27 seasonal anomalies, computed MoM growth and 3-month rolling averages, 12.04% overall profit margin. Demonstrates market trend analysis and pattern identification for business decision support.

github.com/Zolow-kuni/data-portfolio/tree/main/project4_sales_trend_analyzer

Interactive KPI Dashboard Python · Streamlit · Plotly · Power BI

Live multi-department dashboard tracking 6 KPIs across 180,519 supply chain orders with automated alerting. Mirrors the product performance monitoring and pre-sales support reporting this role requires.

EDUCATION

MBA / PGPM - ICFAI Business School, Mumbai 2025 · CGPA 6.83

Operations Management -- process optimization, data-driven decision making, product strategy, and performance analytics.

BCA - Shree Guru Ram Rai I.T.S., Dehradun 2022 · 72.68%

Programming (Java, Python), relational databases (SQL), analytical problem solving.

CERTIFICATIONS

🏆 Google Advanced Data Analytics Professional Certificate (7/7) · Verify	Google / Coursera	May 2026
SQL and PostgreSQL: The Complete Developer's Guide (22 hrs) · Verify	Udemy	May 2026
Mastering dbt (Data Build Tool) · Verify	Udemy	May 2026
Python for Data Science · Verify	IBM / Credly	Apr 2026
Power BI Essential Training	LinkedIn Learning	Mar 2026

SKILLS

- AI & Automation:** Generative AI (Claude/LLMs), Prompt Engineering, AI-augmented Analysis, Python (Pandas, NumPy, openpyxl), Process Automation, Node.js, YAML config systems
- Reporting & BI:** Power BI (DAX), Tableau, MS Excel (Pivot, Modeling), Automated Reporting Pipelines, KPI Dashboards, Operational Scorecards, Performance Metrics
- Analysis:** SQL (CTEs, window functions), Market Trend Analysis, Anomaly Detection, Root-Cause Analysis, Cohort Analysis, Data Quality & Integrity
- Business:** Product Support Documentation, Stakeholder Communication, Cross-functional Collaboration, Process Framing, Data Storytelling, Agile
