PROFESSIONAL SUMMARY

Data Scientist & Analyst with ~1.5 years of hands-on experience writing **Python (Pandas, NumPy, Scikit-learn)** and **SQL in Jupyter notebooks** to analyse real-world datasets from Kaggle, government sources, and enterprise systems - spanning 1.2M+ records across 9 end-to-end portfolio projects. Skilled at gleaning **actionable business insights from public and operational data**, building clear analytical narratives, and documenting findings and reasoning for technical and non-technical audiences. Brings both **strong data-science technique** (ML model training, statistical anomaly detection, cohort analysis, RFM segmentation) and **AI evaluation experience** - designed and iterated a 6-dimension LLM output scoring rubric used to evaluate 140+ job descriptions against domain criteria. **Google Advanced Data Analytics Professional Certificate** (full 7-of-7 program, May 2026) including ML fundamentals, regression analysis, and statistics coursework. PST-shift compatible; available immediately.

CORE COMPETENCIES

Python · Pandas · NumPy · Scikit-learn

Jupyter Notebook Analysis

Public Dataset Analysis (Kaggle · UN · Gov)

Statistical Analysis & EDA

AI Model Output Evaluation

Business Insight & Reporting

ML Model Training & Evaluation

SQL · PostgreSQL · SQLite

Data Quality & Validation

Anomaly Detection

Technical Documentation

Async Remote · PST Overlap

WORK EXPERIENCE

Logistics Integrators Pvt. Ltd. Mar 2025 - Mar 2026

Data Analyst - Management Trainee Program · Dehradun, India

- **Wrote Python (Pandas, NumPy) scripts in Jupyter to automate recurring analysis workflows** - cleaning, transforming, and summarising operational datasets; documented logic and methodology clearly for business review
- Applied SQL-based statistical anomaly detection and threshold-based alerting on sales and freight datasets - **surfaced outliers before they impacted SLAs** by translating business questions into structured queries and validated findings
- Led root-cause analysis (RCA) investigations on operational performance spikes - **framed business hypotheses, queried datasets, interpreted results, and communicated corrective actions** to 3-5 cross-functional teams
- Built weekly Power BI dashboards tracking 10+ KPIs as the team's single source of truth; conducted conversion and funnel analysis on shipment journeys, generating insights that informed process redesigns
- Drove **data quality and integrity workflows** - validation, reconciliation, ETL audit - producing thorough documentation of data definitions and measurement standards for non-technical stakeholders

Vrun Minerals Pvt. Ltd. Feb 2024 - Jul 2024

Operations Analyst (Intern) · Dehradun, India

- Cleaned and validated distributor and sales datasets using Python (Pandas) and Excel; performed inventory reconciliation and data accuracy checks, reducing reporting errors
- Documented data workflows and metrics definitions clearly for non-technical stakeholders; conducted business trend analysis to support supply-chain decisions

PORTFOLIO PROJECTS - PYTHON · JUPYTER · PUBLIC DATASETS

Fraud & Anomaly Detection - 284K Real Transactions (Kaggle) PYTHON · JUPYTER

End-to-end Python analysis in Jupyter on **284,807 real European credit card transactions** (Kaggle). Applied Z-score, IQR, and a rule-based risk scoring system (0-100) to flag 2,838 suspicious records at a 0.17% fraud rate. Documented reasoning for every threshold decision with clear explanations - the same rigour required when evaluating AI model outputs for correctness and coherence.

Python · Pandas · NumPy · SciPy · Scikit-learn · Jupyter · [GitHub](#)

NYC Taxi EDA - 408K Trip Records · PACE Framework (Kaggle) EDA · BUSINESS INSIGHT

Full exploratory data analysis in Python/Jupyter on **408,294 NYC TLC Yellow Taxi trips** (Kaggle / US government data). Engineered 5 features (trip duration, hour, quarter, zero-distance flag); applied IQR outlier detection; built 4 visualisations + Tableau scatter plot. Documented findings using the **PACE framework with an executive summary** - practised communicating data insights clearly and expressing the logic behind each analytical choice.

Python · Pandas · NumPy · Matplotlib · Seaborn · Tableau · Jupyter · [GitHub](#)

Customer Churn Prediction - ML Training & Evaluation (Kaggle) ML EVALUATION

Trained and benchmarked 3 ML classification models on **7,043 Telco customer records** (Kaggle). Generated ROC curves, AUC scores (Logistic Regression 0.837, Random Forest 0.824, Decision Tree 0.781), feature importance charts, and 8 EDA plots. Produced a structured **comparative model evaluation report** with clear rationale for ranking each model's performance - directly mirrors the evaluation and ranking of AI outputs.

R · tidyverse · randomForest · caret · pROC · ggplot2 · [GitHub](#)

SQL Retail Analysis - 805K Rows, 41 Countries (Kaggle) SQL · DATA INSIGHT

Cleaned and loaded **805,549 rows** from 525,461 raw Online Retail II transactions (Kaggle) into SQLite; wrote 15 advanced queries (window functions, CTEs, RFM segmentation, cohort retention, MoM revenue via LAG) - documented each query's business purpose and findings across 5,878 customers in 41 countries.

SQL · SQLite · Python · Jupyter · [GitHub](#)

career-ops - AI Response Evaluation & LLM Pipeline AI EVALUATION

Designed and built a **6-dimension LLM output scoring rubric** used to evaluate 140+ job descriptions against predefined criteria - assessing fit, reasoning quality, and output coherence. Iterated on evaluation prompts to improve consistency and accuracy; developed structured YAML-config pipelines (Claude Code / Anthropic API) with clear documentation of evaluation logic. **Directly parallel to Turing's "evaluate and rank AI model responses" and "develop rationales for evaluations" responsibilities.**

Node.js · Claude Code (Anthropic API) · YAML · Playwright · Notion API

EDUCATION

MBA / PGPM - Operations Management · ICFAI Business School, Mumbai 2025 · CGPA 6.83

Data-driven decision making, business analytics, process optimization, performance reporting.

Bachelor of Computer Applications (BCA) · Shree Guru Ram Rai I.T.S., Dehradun 2022 · 72.68%

Programming (Python, Java), relational databases (SQL), algorithms and analytical problem solving.

CERTIFICATIONS

 Google Advanced Data Analytics Professional Certificate (7-of-7 courses)	Google / Coursera	May 2021
The Nuts and Bolts of Machine Learning	Google / Coursera	May 2021
The Power of Statistics	Google / Coursera	May 2021
Regression Analysis: Simplify Complex Data Relationships	Google / Coursera	May 2021
Python for Data Science	IBM / Credly	Apr 2026
Data Analysis Using Python	IBM / Credly	Mar 2026
SQL and PostgreSQL: The Complete Developer's Guide (22 hrs)	Udemy	May 2021
2025 Mastering dbt (Data Build Tool) - Beginner to Pro (8 hrs)	Udemy	May 2021

SKILLS

Python & Data Science: Python (Pandas, NumPy, SciPy, Scikit-learn, openpyxl), Jupyter Notebook, Statistical Analysis, EDA, Anomaly Detection (Z-score, IQR), ML Model Training & Evaluation (Logistic Regression, Random Forest, Decision Trees, ROC/AUC), R (tidyverse, caret, pROC, ggplot2)

Data & SQL: SQL (joins, window functions, CTEs, aggregations), PostgreSQL, SQLite, dbt Core, ETL Validation, Data Quality & Integrity, Process Automation

AI Evaluation & LLM: LLM Output Assessment, Evaluation Rubric Design, Prompt Iteration, AI Response Ranking, Claude Code (Anthropic API), YAML-config Pipelines

BI & Visualization: Power BI, Tableau, Streamlit, Plotly, MS Excel (Pivot Tables, Advanced Modeling)

Communication & Work Style: Technical Documentation, Business Insight Reporting, Stakeholder Communication, Async Remote, PST-shift compatible (IST UTC+5:30)
