Dehradun, India · IST (UTC+5:30) · PST-shift compatible · Remote

PROFESSIONAL SUMMARY

SQL Developer and Data Analyst with ~1.5 years of hands-on experience writing **advanced PostgreSQL and SQLite queries** - including window functions, CTEs, subqueries, aggregations, RFM segmentation, and cohort analysis - on datasets up to 805K+ rows. Experienced in **translating business requirements into precise, validated SQL logic**: built anomaly detection queries, ETL audit pipelines, and data transformation workflows in production environments. Certified in PostgreSQL (22 hrs, Udemy) and dbt Core; holds the **Google Advanced Data Analytics Professional Certificate** (7 courses, May 2026). BCA (Computer Applications) + MBA (Operations). PST-shift compatible; available immediately for remote contract work.

CORE COMPETENCIES

Advanced SQL - Window Functions · CTEs · Subqueries

PostgreSQL (certified)

Business Logic → SQL Translation

Data Transformation · dbt Core

Data Validation & Quality

ETL Audit & Reconciliation

Query Debugging & Optimisation

Python · Pandas · NumPy

Relational Database Concepts

Technical Documentation

Async Remote · PST Overlap

WORK EXPERIENCE

Logistics Integrators Pvt. Ltd. Mar 2025 - Mar 2026

Data Analyst - Management Trainee Program · Dehradun, India

- Drove data quality and integrity workflows:** SQL-based validation, reconciliation, and ETL audit - identifying and eliminating reporting discrepancies across cross-functional systems; directly mirrors "validate accuracy of SQL implementations"
- Built SQL-based statistical anomaly detection and threshold-based alerting** on operational and sales datasets - translating business rules into precise query logic that surfaced outliers before they impacted SLAs
- Translated business requirements into SQL:** designed conversion, funnel, and drop-off analysis on shipment journeys (start-to-delivery), converting stakeholder questions into auditable query logic
- Led root-cause analysis (RCA) on performance spikes - queried, cross-validated, and documented findings for 3-5 cross-functional teams; maintained technical documentation throughout
- Automated recurring reporting workflows in **Python (Pandas, NumPy)** and owned weekly Power BI dashboards tracking 10+ business KPIs

Vrun Minerals Pvt. Ltd. Feb 2024 - Jul 2024

Operations Analyst (Intern) · Dehradun, India

- Cleaned and validated distributor and sales datasets (Excel + Python/Pandas); performed inventory reconciliation and data accuracy checks
- Documented data workflows and measurement requirements for non-technical stakeholders

PROJECTS

SQL Retail Analysis - Advanced Querying at Scale CORE SQL

Cleaned and loaded **805,549 rows** from 525,461 raw Online Retail II transactions into SQLite; wrote **15 advanced queries** covering window functions, CTEs, RFM segmentation, cohort retention, and MoM revenue growth via LAG() - across 5,878 customers and 41 countries. Each query was written to capture a specific business question accurately, then validated against expected output distributions - exactly the business-logic-to-SQL workflow this role requires.
SQL · SQLite · Python · [GitHub](#)

Financial Data Integrity Checker - 10-Rule Validation Engine DATA VALIDATION

Engineered a **10-rule SQL and Python validation engine** on 700 real Microsoft financial records: 10/10 rules passed, 14 profit outliers flagged via 3-sigma detection, completeness scored 91-100% per column. Structured pass/fail verdicts with documented findings - the same validation discipline needed to confirm SQL implementations are capturing business logic correctly.
Python · Pandas · NumPy · Matplotlib · [GitHub](#)

Python Automation Pipeline - End-to-End Data Transformation DATA TRANSFORMATION

Built a fully automated pipeline on 1,000 retail records: ingest → clean → validate → analyse → generate 5-sheet formatted Excel report with timestamps. **100% data quality score, single-command execution.** Mirrors the data transformation and aggregation requirements in this role.
Python · Pandas · openpyxl · logging · [GitHub](#)

Fraud & Anomaly Detection System SQL + PYTHON

Applied Z-score, IQR, and rule-based risk scoring (0-100) to **283,726 European credit card transactions**; flagged 2,838 suspicious records at a 0.17% fraud rate. Business rules translated directly into detection logic - same skill as translating business requirements into SQL that "accurately reflects business logic."
Python · Pandas · NumPy · SciPy · Scikit-learn · [GitHub](#)

Interactive KPI Dashboard - Supply Chain Analytics AGGREGATION

Built a live multi-department dashboard tracking 6 KPIs across **180,519 real supply chain orders**; automated alerting surfaced a 40.9% on-time delivery rate. SQL aggregation and business metric translation at production scale.
Python · Streamlit · Plotly · Pandas · [GitHub](#)

EDUCATION

MBA / PGPM - Operations Management · ICFAI Business School, Mumbai	2025 · CGPA 6.83
Data-driven decision making, process optimization, performance analytics.	
Bachelor of Computer Applications (BCA) · Shree Guru Ram Rai I.T.S., Dehradun	2022 · 72.68%
Programming (Java, Python), relational databases (SQL), data structures, analytical problem solving.	

CERTIFICATIONS

SQL and PostgreSQL: The Complete Developer's Guide (22 hrs) - joins, subqueries, window functions, CTEs, functions	Udemy	May 2021
2025 Mastering dbt (Data Build Tool) - Data Transformation & Modelling (8 hrs)	Udemy	May 2021
🏆 Google Advanced Data Analytics Professional Certificate (7-of-7 courses)	Google / Coursera	May 2021
Data Analysis Using Python	IBM / Credly	Mar 2026
Python for Data Science	IBM / Credly	Apr 2026

SKILLS

SQL & Databases: PostgreSQL (certified, 22 hrs), SQLite, Advanced SQL (window functions, CTEs, subqueries, joins, aggregations, LAG/LEAD, RFM, cohort analysis), Data Modelling, ETL Validation, Query Optimisation, dbt Core

Python & Data Engineering: Python (Pandas, NumPy, openpyxl), Statistical Analysis, Anomaly Detection (Z-score, IQR, 3-sigma), Data Quality Pipelines, Process Automation

BI & Visualisation: Power BI (DAX, dashboards), Tableau, Streamlit, Plotly, MS Excel (Pivot Tables)

Documentation & Collaboration: Technical Documentation, Data Workflow Documentation, Cross-functional Stakeholder Communication, Async Remote

Work Style: Remote contractor · PST-shift compatible (IST UTC+5:30) · Available immediately
