Dehradun, India · Open to relocate to Mumbai

5 June 2026

Talent Acquisition Team
BNP Paribas India Solutions Pvt. Ltd.
Mumbai, India

Re: Associate - FSS (OPC Reporting & Administrative Support)

I am writing to apply for the Associate position within the FSS department at BNP Paribas India Solutions. With an **MBA in Operations Management (ICAI Business School Mumbai, 2025)** and 1.5 years of hands-on experience in MIS reporting, data extraction, KPI tracking, and internal report preparation, I am confident that my background maps directly to the operational control and reporting responsibilities you have outlined.

In my role as a Data Analyst (Management Trainee) at Logistics Integrators Pvt. Ltd., I owned the **weekly MIS and performance reporting cycle** for 10+ business KPIs, established a single source of truth for cross-team reporting, and drove data validation and reconciliation workflows that eliminated discrepancies across reporting systems. I also led root-cause analysis on operational performance incidents - partnering with 3-5 cross-functional teams to document findings and ship corrective actions - work that is directly analogous to incident management and recommendations follow-up in a permanent control framework.

On the control modelling and data accuracy side, my **Financial Data Integrity Checker project** (a 10-rule validation engine on Microsoft financial records, flagging outliers via 3-sigma detection with 91-100% completeness scoring per column) demonstrates the attention to detail and structured quality assurance mindset your OPC team requires. I am proficient in MS Excel, PowerPoint, and Python-based reporting automation, and I am ready to ramp quickly on BNPP-specific tools including Aurora and CAC.

I am drawn to BNP Paribas India Solutions specifically because of the scale and governance depth of the FSS shared service model - delivering across 29 countries and 7 work streams. This is an environment where rigorous reporting and control discipline has direct business impact, and where I can grow within a structured, globally respected finance organization.

I would welcome the opportunity to discuss how my profile fits the team's needs. I am immediately available and open to relocating to Mumbai.

Yours faithfully,

Subham Joshi
