PROFESSIONAL SUMMARY

MIS Reporting & Operations Analyst with ~1.5 years of hands-on experience in periodic MIS reporting, KPI tracking, data extraction, internal report preparation, and data integrity workflows across cross-functional teams. **MBA (Operations Management) - ICFAI Business School Mumbai, 2025**. Proficient in MS Excel, PowerPoint, and Python-based reporting automation; experienced in data validation, reconciliation, audit workflows, and root-cause investigations on operational performance incidents. Backed by 9 end-to-end portfolio projects across Python, SQL, R, Power BI, and Tableau on real datasets totalling 1.2M+ records - including a financial data integrity validation engine and automated MIS reporting pipelines. **Google Advanced Data Analytics Certified** (full 7-of-7 Professional Certificate, May 2026) · 15 certifications total.

CORE COMPETENCIES

MIS Reporting

KPI Tracking & Metrics Ownership

Data Extraction & Computation

Internal Reporting (Excel / PowerPoint)

Data Validation & Reconciliation

Audit & Control Reporting

Root-Cause Analysis (RCA)

Incident Documentation

Cross-functional Coordination

SQL · Python (Pandas) · Power BI

MS Excel (Advanced) · PowerPoint

Reporting Automation

WORK EXPERIENCE

Logistics Integrators Pvt. Ltd. Mar 2025 - Mar 2026 · Dehradun, India
Data Analyst (Management Trainee Program)

- Prepared **periodic MIS and performance reports** tracking 10+ business KPIs across freight operations; established the single source of truth for cross-team reporting - eliminating discrepancies in weekly business reviews
- Drove **data extraction, validation, and reconciliation** workflows across reporting systems: identified and resolved data integrity gaps, documented metric definitions, and maintained audit-ready datasets
- Led **root-cause analysis (RCA) on operational performance incidents** - shipment delays, turnaround drops, cost overruns - partnering with 3-5 cross-functional teams to validate data, document findings, and ship corrective actions
- Built SQL-based **threshold-based alerting** on operational and sales datasets, surfacing anomalies before they impacted SLAs; designed conversion and drop-off analysis on shipment journeys to inform process redesigns
- Automated recurring reporting pipelines** in Python (Pandas, NumPy), reducing manual effort on weekly business reviews and improving turnaround on stakeholder-facing reports
- Developed **PowerPoint and Excel-based internal reports** for management, translating complex operational data into structured, decision-ready presentations for senior stakeholders

Vrun Minerals Pvt. Ltd. Feb 2024 - Jul 2024 · Dehradun, India
Operations Analyst (Intern)

- Cleaned and validated distributor and sales datasets using Excel and Python (Pandas); built dashboards with deviation highlighting on inventory and sales trends for daily operations
- Performed **inventory reconciliation and data accuracy checks**, reducing reporting errors and improving stock visibility across the supply chain
- Documented data workflows and measurement requirements, improving metric transparency for non-technical stakeholders; conducted business trend analysis to generate actionable supply-chain insights

SELECTED PROJECTS

Financial Data Integrity Checker Control Validation

Python · Pandas · NumPy · Matplotlib

Engineered a **10-rule validation engine** on 700 real Microsoft financial records; all 10 validation rules passed, 14 profit outliers flagged via 3-sigma detection, completeness scored 91-100% per column. Directly mirrors a permanent control framework: rule-based control modeling, anomaly flagging, and completeness reporting. [\[GitHub\]](#)

Python Automation Pipeline - MIS Reporting Reporting Automation

Python · Pandas · openpyxl · logging

Built an end-to-end automated reporting pipeline on 1,000 retail records - ingest, clean, validate, analyse, and generate a **5-sheet formatted Excel report** with timestamps and audit logging; 100% data quality score, single-command execution. Equivalent to automated periodic status reports in an OPC environment. [\[GitHub\]](#)

Interactive KPI Dashboard Performance Tracking

Python · Streamlit · Plotly · Pandas

Built a live multi-department dashboard tracking **6 KPIs** (on-time delivery, revenue, profit margin, delay days) across 180,519 real supply chain orders; 40.9% on-time delivery rate surfaced through automated alerting - analogous to control production dashboards for management reporting. EDUCATION

MBA / PGPM - Operations Management 2025 · CGPA 6.83
ICFAI Business School, Mumbai
Focus: data-driven decision making, process optimization, performance analytics, and financial management.

Bachelor of Computer Applications (BCA) 2022 · 72.68%
Shree Guru Ram Rai I.T.S., Dehradun
Foundation in programming (Java, Python), relational databases (SQL), and analytical problem solving.

CERTIFICATIONS

 Google Advanced Data Analytics Professional Certificate (7/7 courses)	Google / Coursera	May 2026
SQL and PostgreSQL: The Complete Developer's Guide (22 hrs)	Udemy	May 2026
Mastering dbt (Data Build Tool) - Beginner to Pro (8 hrs)	Udemy	May 2026
Python for Data Science	IBM / Credly	Apr 2026
Data Analysis Using Python	IBM / Credly	Mar 2026
Power BI Essential Training	LinkedIn Learning	Mar 2026

SKILLS

Reporting & MIS: MS Excel (Advanced, Pivot Tables, Modelling), PowerPoint, MIS Report Preparation, Periodic Status Reports, Access Rights Campaign Tracking, Internal Reporting, Data Reconciliation, Audit Support

SQL & Python: SQL (joins, window functions, CTEs, aggregations), PostgreSQL, SQLite, Python (Pandas, NumPy, openpyxl), Statistical Analysis, Outlier Detection, Cohort Analysis

BI & Visualisation: Power BI (DAX, dashboard ownership), Tableau, Streamlit, Plotly, Executive Dashboards, Self-serve Analytics

Data Quality & Control: Data Validation, Data Integrity, ETL Audit, Reconciliation, Rule-based Control Modelling, Incident Documentation, RCA / Performance Monitoring

Collaboration: Cross-functional Stakeholder Management, Data Storytelling, Non-technical Communication, Agile, Documentation
