Process Documentation & Guideline Writing

Cross-functional Coordination & Follow-up

MS Excel · MS Office Suite · Google Workspace

Written & Verbal Communication (English)

Deadline Management & Prioritisation

Reconciliation & Discrepancy Resolution

Stakeholder & Client Email Communication

Attention to Detail

Root-Cause Analysis & Problem Solving

Fast Domain Acquisition

WORK EXPERIENCE

Logistics Integrators Pvt. Ltd. Mar 2025 - Mar 2026 · Dehradun, India

Data Analyst (Management Trainee Program)

- High-accuracy data validation:** Owned data integrity workflows - validation, reconciliation, and discrepancy resolution - maintaining audit-ready, 100%-accurate datasets across cross-functional reporting systems
- Cross-functional coordination & follow-up:** Led root-cause investigations partnering with 3-5 cross-functional teams to validate conflicting records, gather missing information, and drive corrective action - mirrors persistent provider and client follow-up in credentialing operations
- Process documentation & reporting:** Documented data workflows, metric definitions, and standard operating procedures; prepared management-level summaries in Excel and PowerPoint for weekly business reviews
- Large-volume research & analysis:** Conducted systematic research on operational and sales datasets, interpreting findings and drafting clear written summaries for non-technical stakeholders and senior management
- Deadline-driven operations:** Managed recurring reporting cycles under tight turnaround requirements, consistently delivering accurate outputs on schedule

Vrun Minerals Pvt. Ltd. Feb 2024 - Jul 2024 · Dehradun, India

Operations Analyst (Intern)

- Performed inventory reconciliation and data accuracy checks across daily operations; documented findings with deviation highlights for management review using Excel and Google Sheets
- Conducted business research and trend analysis; translated findings into clear, concise written reports for non-technical stakeholders to support supply-chain decisions
- Managed stakeholder communication and coordinated across teams to resolve data discrepancies and gather operational information within set deadlines

SELECTED PROJECTS

Financial Data Integrity Checker Validation · Accuracy

Python · Pandas · NumPy · Matplotlib

Built a 10-rule validation engine on 700 Microsoft financial records; all 10 rules passed, 14 outliers detected, completeness scored 91-100% per column. Demonstrates systematic approach to validating and authenticating data to zero-error standards - directly applicable to credentialing record accuracy. [\[GitHub\]](#)

Python Automation Pipeline - Reporting Process Automation

Python · Pandas · openpyxl · logging

End-to-end pipeline: ingest, clean, validate, analyse, and auto-generate a 5-sheet formatted Excel report with audit logging; 100% data quality score, single-command execution - shows ability to build and maintain repeatable, high-accuracy operational workflows. [\[GitHub\]](#)

SQL Retail Analysis - 805K Rows Research & Analysis

SQL · SQLite · Python

Cleaned and analysed 805,549 rows across 5,878 customers and 41 countries; produced structured findings with actionable business summaries. Demonstrates ability to conduct and interpret large-volume research systematically. [\[GitHub\]](#)
