Dehradun, India · Open to relocate to Mumbai

## PROFESSIONAL SUMMARY

Operations & Risk Reporting Analyst with ~1.5 years of hands-on experience in **KRI tracking, operational incident root-cause analysis, MIS reporting, and data integrity workflows** across cross-functional teams. **MBA (Operations Management) - ICFAI Business School Mumbai, 2025**. Proficient in MS Excel, PowerPoint, Python, and Power BI; experienced in threshold-based alerting, anomaly detection, performance monitoring, and producing management-level dashboards - skills directly applicable to operational risk monitoring and ORM reporting functions. Backed by 9 portfolio projects on real datasets totalling 1.2M+ records; **Google Advanced Data Analytics Certified** (7-of-7 Professional Certificate, May 2026).

## CORE COMPETENCIES

|                                           |                                   |                                            |
|-------------------------------------------|-----------------------------------|--------------------------------------------|
| KRI Tracking & Threshold Monitoring       | Operational Risk MIS & Dashboards | Root-Cause Analysis (RCA)                  |
| Incident Documentation & Reporting        | Data Validation & Integrity       | Performance Monitoring & Anomaly Detection |
| Cross-functional Stakeholder Coordination | MS Excel (Advanced) · PowerPoint  | Internal Reporting & Audit Support         |
| SQL · Python (Pandas) · Power BI          | Process Documentation             | Attention to Detail & Data Accuracy        |

## WORK EXPERIENCE

### Logistics Integrators Pvt. Ltd.

Mar 2025 - Mar 2026 · Dehradun, India

#### Data Analyst (Management Trainee Program)

- KRI tracking & threshold monitoring:** Built SQL-based statistical alerting on operational and sales datasets, flagging anomalies before they breached SLA thresholds - directly analogous to monitoring Key Risk Indicators and escalating threshold breaches in an ORM framework
- Operational incident RCA:** Led root-cause analysis on performance spikes (shipment delays, turnaround drops, cost overruns), partnering with 3-5 cross-functional teams to validate data, document findings, and ship corrective actions - mirrors ORM incident investigation and loss event management
- Risk MIS & dashboards:** Owned weekly BI dashboards tracking 10+ operational KPIs in Power BI; established the single source of truth for cross-team reporting and prepared management-level performance summaries in Excel and PowerPoint
- Data integrity & audit-readiness:** Drove validation, reconciliation, and ETL audit workflows - eliminating discrepancies and maintaining clean, audit-ready datasets across reporting systems
- Reporting automation:** Automated recurring MIS pipelines in Python (Pandas, NumPy), reducing manual effort and improving turnaround on business review reports

### Vrun Minerals Pvt. Ltd.

Feb 2024 - Jul 2024 · Dehradun, India

#### Operations Analyst (Intern)

- Performed inventory reconciliation and data accuracy checks; built deviation-highlighting dashboards on inventory and sales trends for management review
- Documented data workflows and measurement requirements; conducted business trend analysis to generate actionable operational insights for non-technical stakeholders

## SELECTED PROJECTS

### Financial Data Integrity Checker

Control & Validation

Python · Pandas · NumPy · Matplotlib

10-rule validation engine on 700 Microsoft financial records; all rules passed, 14 profit outliers flagged via 3-sigma detection, 91-100% completeness per column. Mirrors control testing and data quality assurance in an ORM incident database. [\[GitHub\]](#)

Fraud & Anomaly Detection System Risk Analytics

Python · Pandas · NumPy · SciPy · Scikit-learn

Z-score, IQR, and rule-based risk scoring (0-100) on 283,726 credit card transactions; flagged 2,838 suspicious records at 0.17% fraud rate. Demonstrates threshold-based risk flagging and anomaly escalation logic applicable to operational risk monitoring. [\[GitHub\]](#)

Interactive KPI & Risk Dashboard Performance Monitoring

Python · Streamlit · Plotly · Pandas

Live multi-department dashboard tracking 6 operational KPIs (on-time delivery, revenue, profit margin, delay days) across 180,519 supply chain orders with automated alerting on threshold breaches - equivalent to an ORM KRI monitoring dashboard for senior management. [\[GitHub\]](#)

Python Automation Pipeline - MIS Reporting Reporting Automation

Python · Pandas · openpyxl · logging

End-to-end automated pipeline: ingest, clean, validate, analyse, and generate a 5-sheet formatted Excel MIS report with timestamps and audit logging; 100% data quality score, single-command execution. [\[GitHub\]](#)

EDUCATION

MBA / PGPM - Operations Management 2025 · CGPA 6.83

ICFAI Business School, Mumbai

Focus: risk-informed decision making, process optimization, performance analytics, financial management.

Bachelor of Computer Applications (BCA) 2022 · 72.68%

Shree Guru Ram Rai I.T.S., Dehradun

Programming (Java, Python), relational databases (SQL), analytical problem solving.

SKILLS

**Risk & Control Reporting:** KRI Monitoring, Threshold Alerting, Incident Documentation, RCSA Support, Audit-Ready Data Management, MIS Report Preparation, Internal Reporting, Cross-functional Coordination

**Analytics & Tools:** MS Excel (Advanced, Pivot Tables), PowerPoint, SQL (joins, window functions, CTEs), Python (Pandas, NumPy), Power BI (DAX, dashboards), Tableau, Anomaly Detection, Statistical Analysis

**Soft Skills:** Attention to Detail, Data Accuracy, Stakeholder Communication, Process Documentation, Multi-task Management, Agile
